Volume 6

# KRONICLE

The weeks keep flying by ... too fast indeed. Week 6 was another great week at Katonim with some more hot, sticky weather to keep us jumping in the lake.

Monday's rain was a welcome relief to the hot weather. It also brought us the 2010 installment of the Mr. & Mrs. Katonim Contest. Male and female counsellors were dressed up by cabin groups as members of the opposite sex. They strutted their stuff to see who has what it takes. This year's winner ... Max!

Tuesday, our Twix & Tweeners spent some extra time after camp at their Late Night: riding the tube, jumping on the floating mat, and eating hotdogs.

On Wednesday, we had a visit from Zoo Tec. All the campers had a great time meeting some exotic

animals including snakes, birds, rabbits, lizards, and many more.

We had our regular Hobby Hubs this week. Pancakes were decorated, footballs were intercepted, music was composed, photos were snapped, and jewellery was beaded. I have to say that there is something very special about Hobby Hubs - the connection to the camp from campers, parents, and staff is truly unique.

It was another hot evening in the Rec Hall for this year's Dance Show. Every cabin performed, including a stellar routine by some of our talented Parents. Who knew there was so much latent talent among us! Thanks to Alexa for all her hard work in choreographing each of the numbers.

Today we ran an emergency drill where Jonah, my son, was reported

missing. The staff followed our emergency procedures and Jonah was quickly found. Our staff debriefed the campers and assured them that Jonah was safe and it was only a drill.

Only two more weeks left. But not to worry, we still have a lot more camp left, including: our camper play, "Grease", our Ski Show which will now be held on Wednesday night for Hobby Hubs, our 2-day special day Olympics and of course, the Camper Banquet on Thursday, August 27.

Have a wonderful weekend,

Richard and AJ
